D. Ringkasan Pertanyaan & Jawaban Berikut adalah pertanyaan dari peserta dan jawaban yang disampaikan secara langsung oleh Direksi: 1. **Nama : Juan Harahap** **Institusi : Samuel Sekuritas**	*D. Summary of Questions & Answers* *The following are the questions from the participants and responses provided directly by the Board of Directors:* *1. **Name: Juan Harahap*** ***Institution: Samuel Sekuritas***

Pertanyaan: Bagaimana tanggapan emiten terkait *recent regulation* terkait kontraktor afiliasi, apakah ada dampak ke operasional? Adakah penyesuaian atau perkembangan baru yang perlu diperhatikan dari peraturan ini?	***Question:*** *What is the company's response to the recent regulations concerning affiliated contractors? Have these regulations had any impact on operations? Are there any adjustments or new developments arising from these regulations that should be noted?*
Jawaban: Dijawab oleh Ibu Meinar Kusumastuti – Direktur. Perusahaan memandang penerbitan Keputusan Menteri ESDM mengenai pedoman teknis persetujuan penggunaan anak Perusahaan dan/atau afiliasi dalam bidang usaha jasa pertambangan mineral dan batubara tidak memberikan dampak material terhadap kegiatan operasional, kelangsungan kontrak jasa pertambangan, maupun prospek usaha Perusahaan saat ini. Sebagaimana diatur dalam ketentuan tersebut, penggunaan anak Perusahaan dan/atau afiliasi dalam kegiatan jasa pertambangan tetap dimungkinkan sepanjang memperoleh persetujuan Menteri ESDM dan memenuhi persyaratan yang berlaku. Selain itu, seperti yang telah kami sampaikan pada materi presentasi hari ini, portofolio proyek Perusahaan saat ini cukup terdiversifikasi dan sebagian besar kegiatan usaha berasal dari pelanggan di luar grup (non-afiliasi). Dengan demikian, kegiatan usaha Perusahaan tidak hanya bergantung pada proyek-proyek yang berasal dari pihak terafiliasi. Perlu kami sampaikan juga bahwa industri jasa kontraktor pertambangan memiliki karakteristik operasional dan teknis yang spesifik dimana pada pelaksanaannya dilapangan membutuhkan pengalaman, kapabilitas teknis, kesiapan armada dan sumber daya manusia, serta pemahaman terhadap karakteristik masing-masing area tambang. Perusahaan memiliki pengalaman lebih dari 54 tahun serta kapabilitas dalam menyediakan jasa pertambangan terintegrasi, yang mendukung posisi Perusahaan untuk tetap berpartisipasi secara kompetitif dalam proyek-	***Answer:*** *Answered by Mrs. Meinar Kusumastuti – Director.* *The Company views the issuance of the Minister of Energy and Mineral Resources Decree concerning the technical guidelines for obtaining approval to engage subsidiaries and/or affiliates in mineral and coal mining services business activities as having no material impact on the Company's current operational activities, continuity of mining services contracts, or business prospects.* *As stipulated in the regulation, the engagement of subsidiaries and/or affiliates in mining services activities remains permissible, provided that approval is obtained from the Minister of ESDM and all applicable requirements are fulfilled.* *Furthermore, as presented in today's presentation materials, the Company's current project portfolio is relatively diversified, with the majority of its business activities derived from customers outside the group (non-affiliated parties). Accordingly, the Company's business activities are not solely dependent on projects sourced from affiliated parties.* *We would also like to highlight that the mining contracting services industry has specific operational and technical characteristics, whereby project execution in the field requires relevant experience, technical capabilities, fleet and manpower readiness, as well as an understanding of the specific characteristics of each mining area. With more than 54 years of experience and the capability to provide integrated mining services, the Company is well-positioned to continue participating competitively*

proyek pertambangan, baik dari pelanggan dalam grup maupun non-afliliasi.	*in mining projects, both for customers within the group and non-affiliated customers.*
2. **Nama : Hafiyyan** **Institusi : Bisnis Indonesia** **Pertanyaan:** Berapa nilai kontrak *on hand* PTRO sejauh ini? **Jawaban:** Dijawab oleh Bapak Ruddy Santoso – Direktur. Pada semester pertama 2026, Perusahaan membukukan *backlog* sebesar US$5,36 miliar, meningkat 24% dibandingkan periode yang sama tahun sebelumnya. Pertumbuhan ini terutama didorong oleh peningkatan backlog pada segmen *Contract Mining* yang mencapai US$4,91 miliar, naik dari US$3,79 miliar pada periode yang sama tahun sebelumnya, serta kontribusi dari segmen EPCI & *Other Services*. Seperti yang telah kami sampaikan, pencapaian ini mencerminkan permintaan yang kuat terhadap jasa layanan Perusahaan serta memperkuat visibilitas pendapatan jangka panjang dan keberlanjutan pertumbuhan usaha di masa yang akan datang.	2. ***Name: Hafiyyan*** ***Institution: Bisnis Indonesia*** ***Question:*** *What is the current value of PTRO's contract backlog to date?* ***Answer:*** *Answered by Mr. Ruddy Santoso – Director.* *During the first half of 2026, the Company recorded a backlog of US$5.36 billion, representing a 24% increase compared to the same period in the previous year. This growth was primarily driven by an increase in the Contract Mining segment's backlog, which reached US$4.91 billion, up from US$3.79 billion in the same period of the previous year, as well as contributions from the EPCI & Other Services segment. As previously highlighted, this achievement reflects strong demand for the Company's services, while further strengthening long-term revenue visibility and supporting sustainable business growth in the future.*
3. **Nama : B. Widjaja** **Institusi : Investor Individual** **Pertanyaan**: Bagaimana realisasi *capex* Perusahaan sepanjang tahun 2026? **Jawaban**: Dijawab oleh Bapak Ruddy Santoso – Direktur. Realisasi belanja modal (*capex*) Perusahaan Semester I 2026 mencapai sekitar US$30 juta, yang digunakan untuk mendukung pertumbuhan operasional, peningkatan kapasitas produksi, serta penguatan keandalan armada dan infrastruktur operasional Perusahaan. Belanja modal untuk peralatan pada semester pertama tahun 2026 mengalami normalisasi dari tahun sebelumnya, Perusahaan terus	3. ***Name: B. Widjaja*** ***Institution: Individual Investor*** ***Question:*** *What was the Company's capex realization throughout 2026?* ***Answer:*** *Answered by Mr. Ruddy Santoso – Director.* *The Company's capital expenditure (capex) realization in the first half of 2026 amounted to approximately US$30 million, which was allocated to support operational growth, increase production capacity, and strengthen the reliability of the Company's fleet and operational infrastructure. Capital expenditure on equipment in the first half of 2026 normalized compared to*

mengoptimalkan pengelolaan modal dengan menerapkan pendekatan investasi selektif dan terukur yang disesuaikan dengan kebutuhan operasional proyek serta mempertimbangkan perkembangan regulasi yang berlaku.	*the previous year. The Company continues to optimize its capital management by adopting a selective and measured investment approach, aligned with project operational requirements and taking into consideration developments in the applicable regulatory framework.*
4. **Nama : Adam Noval** **Institusi : Investor Individual** **Pertanyaan:** Setelah investasi TOLU sebesar 5% kepemilikan, peluang sinergi seperti apa yang paling cepat direalisasikan oleh Petrosea? **Jawaban:** Dijawab oleh Bapak Kartika Hendrawan – Direktur. Investasi strategis Perusahaan pada Tolu Minerals Limited (TOLU) membuka peluang sinergi yang dapat dikembangkan melalui dua aspek utama: 1. Pengembangan bisnis di pasar regional dengan memanfaatkan kompetensi yang telah dimiliki Petrosea. Investasi TOLU membuka peluang bagi Perusahaan untuk memperluas layanan jasa pertambangan dan EPC ke sektor pertambangan emas dan tembaga di Papua Nugini, dengan memanfaatkan pengalaman, keahlian teknis, serta kapabilitas operasional yang telah dimiliki Perusahaan. 2. Optimalisasi kapasitas dan kehadiran HBS Group di Papua Nugini. Melalui anak usaha HBS (PNG) Limited, Perusahaan telah memiliki kapabilitas dan kehadiran operasional di Papua Nugini yang dapat dimanfaatkan untuk berpartisipasi dalam proses tender dan mendukung pelaksanaan proyek-proyek TOLU. Hal ini diharapkan dapat membuka peluang perolehan kontrak baru, termasuk pada tahun 2027.	4. ***Name: Adam Noval*** ***Institution: Individual Investor*** ***Question:*** *Following Petrosea's 5% investment in TOLU, what synergy opportunities can be realized most quickly by the Company?* ***Answer:*** *Answered by Mr. Kartika Hendrawan – Director.* *The Company's strategic investment in Tolu Minerals Limited (TOLU) creates opportunities for synergies that can be developed through two key areas:* 1. *Business development in regional markets by leveraging Petrosea's existing capabilities. The investment in TOLU provides the Company with opportunities to expand its mining services and EPC business into the gold and copper mining sectors in Papua New Guinea, by leveraging the Company's established experience, technical expertise, as well as operational capabilities.* 2. *Optimization of HBS Group's capacity and operational presence in Papua New Guinea. Through its subsidiary, HBS (PNG) Limited, the Company has established operational capabilities and a presence in Papua New Guinea, which can be leveraged to participate in tender processes and support the execution of TOLU's projects. This is expected to create opportunities to secure new contracts, including in 2027.*

5. **Nama : Sjadrijal**
Institusi : Investor Individual

Pertanyaan:
PTRO telah melakukan mengakuisisi beberapa perusahaan seperti Hafar Group, HBS PNG, Scan-Bilt. Kapan pemegang saham bisa melihat hasil nyata/memberikan nilai dari strategi akuisisi tersebut?

Jawaban:
Dijawab oleh Bapak Ruddy Santoso – Direktur.

Hasil dari strategi akuisisi Perusahaan sudah mulai tercermin dalam kinerja keuangan pada semester pertama tahun 2026, dan diharapkan akan semakin meningkat ke depannya.

1. Dilihat dari kontribusi terhadap kinerja keuangan. Selama semester pertama 2026, Hafar Group, HBS Group dan Scan-Bilt yang diakuisisi pada tahun 2025 telah memberikan kontribusi sekitar 9% terhadap total EBITDA konsolidasian PTRO, yang terutama berasal dari kegiatan usaha eksisting masing-masing entitas.

2. Kedepannya, Perusahaan berfokus pada integrasi kapabilitas, pengembangan peluang proyek baru, serta optimalisasi sinergi antar entitas untuk meningkatkan kontribusi pendapatan dan profitabilitas.

   Dengan berbagai inisiatif tersebut, Perusahaan memperkirakan kontribusi dan manfaat strategis dari akuisisi akan semakin terlihat pada tahun-tahun mendatang, sejalan dengan realisasi proyek baru dan pengembangan kegiatan usaha masing-masing entitas.

5. ***Name: Sjadrijal***
Institution: Individual Investor

Question:
PTRO has completed several acquisitions, including Hafar Group, HBS PNG and Scan-Bilt. When can shareholders expect to see tangible results and value creation from these acquisition strategies?

Answer:
Answered by Mr. Ruddy Santoso – Director.

The results of the Company's acquisition strategy have already started to be reflected in its financial performance in the first half of 2026 and are expected to increase further going forward.

1. *In terms of contribution to financial performance. During the first half of 2026, Hafar Group, HBS Group and Scan-Bilt, which were acquired in 2025, contributed approximately 9% of PTRO's total consolidated EBITDA, primarily derived from the existing business activities of each entity.*

2. *Going forward, the Company will focus on integrating capabilities, developing new project opportunities, as well as optimizing synergies across entities to enhance their contributions to revenue and profitability.*

   Through these various initiatives, the Company expects the contributions and strategic benefits of these acquisitions to become increasingly evident in the coming years, in line with the realization of new projects and the further development of each entity's business activities.

6. **Nama : Dani**
Institusi : Investor Individual

Pertanyaan:
Apakah kebakaran hutan dan kondisi air surut yang terjadi di beberapa wilayah operasi berdampak terhadap kinerja operasional Perusahaan, dan bagaimana langkah mitigasi yang dilakukan untuk meminimalkan dampaknya terhadap target operasional masing-masing project?

Jawaban:
Dijawab oleh Bapak Iman Darus Hikhman – Direktur.

Kebakaran hutan di Kalimantan saat ini belum berdampak material terhadap operasional Petrosea. Jarak pandang di area kerja masih dalam batas yang aman sehingga aktivitas produksi tetap berjalan dan untuk operator aman di dalam kabin. Beberapa pekerjaan yang dilakukan di area terbuka, seperti survei dan land clearing, Perusahaan melakukan penyesuaian dengan memanfaatkan dukungan teknologi digital, sementara standar keselamatan tetap diterapkan secara ketat. Emergency Response Team (ERT) Perusahaan akan mendukung upaya pemadaman titik api di sekitar area operasi (jika ada).

Saat ini, fokus perhatian Perusahaan lebih kepada kondisi rendahnya level/ketinggian air sungai dan pelabuhan akibat musim kemarau yang dapat memengaruhi aktivitas pengiriman batu bara. Mitigasi yang dilakukan adalah memastikan aspek keselamatan kerja (jarak pandang, kesehatan kerja) dan disiplin dalam penerapan *operational excellence* untuk manajemen kapasitas *stockpile*. Perusahaan terus melakukan pemantauan dan mitigasi untuk memastikan dampaknya terhadap operasional agar tetap terkendali.

6. ***Name: Dani***
Institution: Individual Investor

Question:
Have forest fires and low-water conditions in several operating areas affected the Company's operational performance? What mitigation measures have been implemented to minimize their impact on the operational targets of each project?

Answer:
Answered by Mr. Iman Darus Hikhman – Director.

The forest fires in Kalimantan have not had a material impact on Petrosea's operations to date. Visibility in the work areas remains within safe limits, allowing production activities to continue as normal, with operators remaining safe inside their equipment cabins. For certain activities carried out in open areas, such as surveying and land clearing, the Company has made operational adjustments by leveraging digital technology, while continuing to strictly enforce applicable safety standards. The Company's Emergency Response Team (ERT) will support firefighting efforts at hotspots around its operational areas, if any.

Currently, the Company's primary concern is the low water levels in rivers and ports due to the dry season, which may affect coal transportation and shipment activities. Mitigation measures include ensuring occupational safety, particularly with regard to visibility and workers' health, as well as maintaining strict operational excellence in stockpile capacity management. The Company continues to monitor the situation and implement mitigation measures to ensure that any potential impact on its operations remains under control.

7. **Nama : Tristan** **Institusi : HP Sekuritas** **Pertanyaan:** Apa yang menjadi katalis utama pertumbuhan PTRO dalam 2-3 tahun ke depan & bagaimana *business outlook*-nya? Apakah Perusahaan masih membuka peluang akuisisi atau investasi baru, terutama peluang ekspansi regional di luar Indonesia? **Jawaban:** Dijawab oleh Bapak Kartika Hendrawan – Direktur. Dalam 2–3 tahun ke depan, Perusahaan melihat beberapa katalis utama pertumbuhan: 1. Pertumbuhan organik dari kontrak eksisting dan proyek baru. Perusahaan akan berfokus pada peningkatan volume pekerjaan dari kontrak yang telah dimiliki, optimalisasi kapasitas dan produktivitas armada, serta realisasi proyek-proyek baru, yang didukung oleh pertumbuhan pada *backlog* kontrak Perusahaan. 2. Optimalisasi portofolio bisnis dan sinergi antarentitas. Perusahaan akan terus mengoptimalkan kapabilitas Hafar Group, HBS Grup dan Scan-Bilt untuk memperluas layanan terintegrasi, meningkatkan kontribusi dari sektor pertambangan mineral, EPC dan offshore EPCI, serta membuka peluang proyek dan pelanggan baru. 3. Peluang investasi dan ekspansi regional. Perusahaan tetap terbuka terhadap peluang akuisisi maupun investasi strategis, termasuk ekspansi di kawasan Asia Pasifik. Dengan kehadiran HBS Group di Papua Nugini serta investasi pada Tolu Minerals Limited, Perusahaan telah memiliki landasan untuk mengembangkan peluang bisnis regional dengan memanfaatkan kompetensi dan kapasitas operasional yang tersedia.	7. ***Name: Tristan*** ***Institution: HP Sekuritas*** ***Question:*** *What are the key catalysts for PTRO's growth over the next 2–3 years, and what is the Company's business outlook? Is the Company still exploring opportunities for further acquisitions or new investments, particularly in terms of regional expansion beyond Indonesia?* ***Answer:*** *Answered by Mr. Kartika Hendrawan – Director.* *Over the next 2–3 years, the Company sees several key growth catalysts:* 1. *Organic growth from existing contracts and new projects. The Company will focus on increasing work volumes under existing contracts, optimizing fleet capacity and productivity, and executing new projects, supported by the growth in the Company's contract backlog.* 2. *Optimization of the business portfolio and synergies across entities. The Company will continue to optimize the capabilities of Hafar Group, HBS Group and Scan-Bilt to expand its integrated service offerings, increase contributions from the minerals mining, EPC and offshore EPCI sectors, as well as create opportunities to secure new projects and customers.* 3. *Investment opportunities and regional expansion. The Company remains open to acquisition opportunities and strategic investments, including expansion across the Asia-Pacific region. With HBS Group's presence in Papua New Guinea and its investment in Tolu Minerals Limited, the Company has established a foundation to develop regional business opportunities by leveraging its existing competencies and operational capabilities.*

Sehingga, kedepannya prioritas Perusahaan adalah mengoptimalkan investasi dan portofolio bisnis yang telah dimiliki, dengan tetap mengevaluasi peluang investasi baru secara selektif berdasarkan potensi sinergi, tingkat pengembalian investasi, serta disiplin alokasi modal untuk menciptakan nilai tambah jangka panjang bagi pemegang saham.	*Going forward, the Company's priority will be to optimize its existing investments and business portfolio, while continuing to selectively evaluate new investment opportunities based on potential synergies, investment returns, as well as disciplined capital allocation, with the objective of creating long-term added value for shareholders.*
8. **Nama : Yurike Metriani** **Institusi : Beritasatu.com** **Pertanyaan:** Apakah Perusahaan memiliki rencana aksi korporasi lainnya dalam waktu dekat untuk mendukung strategi pertumbuhan dan ekspansi bisnis? **Jawaban:** Dijawab oleh Bapak Ruddy Santoso – Direktur. Perusahaan senantiasa mengevaluasi berbagai peluang dan alternatif aksi korporasi yang sejalan dengan strategi pertumbuhan jangka panjang. Namun demikian, terkait rencana aksi korporasi, Perusahaan hanya dapat menyampaikan informasi yang telah diumumkan kepada publik melalui Keterbukaan Informasi, sesuai dengan ketentuan dan peraturan pasar modal yang berlaku. Apabila terdapat perkembangan atau informasi material yang wajib diungkapkan, Perusahaan akan menyampaikannya kepada publik melalui mekanisme Keterbukaan Informasi sesuai dengan ketentuan yang berlaku.	8. ***Name: Yurike Metriani*** ***Institution: Beritasatu.com*** ***Question:*** *Does the Company have any other corporate action plans in the near term to support its business growth and expansion strategy?* ***Answer:*** *Answered by Mr. Ruddy Santoso – Director.* *The Company continuously evaluates various opportunities and corporate action alternatives that are aligned with its long-term growth strategy. However, with regard to corporate action plans, the Company can only disclose information that has been publicly announced through Information Disclosure, in accordance with the prevailing capital market laws and regulations.* *Should there be any material developments or information requiring disclosure, the Company will communicate such information to the public through the Information Disclosure mechanism in accordance with the applicable regulations.*
